Senior Interaction Designer

Professional profile: A detail-oriented Senior UX/UI Designer specialising in design for SaaS within B2B environments. With a primary focus on Interaction Design, I bring a wealth of experience in exchanging with precious stakeholders. Committed to collaborative excellence, I am eager to engage with professionals across diverse domains, contributing to the shaping of tomorrow's interactive experiences.

Current work

Title: Senior Interaction Designer
**Company:** C.E.S.A.R Recife
Timeline: (2021 - Present)

About the company: C.E.S.A.R is a leading B2B tech agency in Brazil and Portugal, boasting a team of over one thousand multidisciplinary professionals dedicated to delivering innovation to a diverse range of high-profile clients worldwide.

My role:
- Responsible for overseeing the product design process while also serving as a design system/UI specialist
- Supervise project onboarding, immersion, roadmapping, and user testing
- Offer guidance and mentorship to junior team members
- Ensure the maintenance of high-quality prototyping practices within the company
- Close collaboration with cross-functional teams in core projects aimed at enhancing digital interfaces and experiences
- Deliver exceptional UX/UI solutions
- Contributed to extending two contracts for my company and securing an additional contract, amounting to a value of £380,000.00.

Title: Midweight UX/UI Designer
Company: Grupo Eleva
Timeline: (2018 - 2021)

About the company: Grupo Eleva is a B2C delivering value in educational innovation and online learning. It's mission is to deliver web and mobile solutions for several schools and courses across Brazil.

My role:
- Designing user interfaces that facilitate seamless navigation and optimise learning outcomes
- Conducting user research, creating wireframes and prototypes
- Collaborating with stakeholders to ensure alignment with educational objectives

Title: Junior UX/UI Designer
Company: Reino Studio
Timeline: (2018)

About the company: Reino Studio is a B2C digital design agency delivering high quality projects to creative industry giants.

My role:
- Supporting the senior designer in prototyping solutions using InVision
- Contributing to the development of user-friendly interfaces and experiences

Title: iOS FrontEnd dev intern
Company: Apple Developer's Academy
Timeline: (2017-2018)

About the company: ADA is a Apple-led initiative to recruit early graduates who want to learn how to develop for iOS and enter the software development market.

My role:
- Developing for iOS applying Swift
- Crafting mobile solutions for high profile clients, focusing mainly on interface prototyping
